GALEON 310 HTC

BRAND NEW YACHT

310 HTC

Galeon 310 HTC was designed to present a more aggressive pro file and features than the leisure oriented flybridge variant. Both yachts share the same interior layout with a notable difference being the presence of an automatic glass roof over the helm station in the HTC.

This nimble hardtop is best suited for a colder and harsher climate. The main living area is protected by glass door dividing the cockpit and can be heated if needed. Open the side windows and sunroof if the weather permits and cruise to your favorite destination.
