680 FLY

The 680 FLY joined the latest, fourth, generation of Galeon models and introduced some exciting new features to the segment. With lightweight construction taking advantage of carbon technologies, its powerful yet elegant frame will offer commendable performance and great handling.

Galeon 680 Fly is a combination of a classic hull with the new “Floating Design” interior and additional innovations added. The interior’s “Floating Design” concept is a direct nod towards waves with its rounded, wavy combination of mat and glossy woodwork.
